28 July 1949

Deputy Executive

1. I have given the Personnel Officer instructions to lag in the procurement of high-grade personnel (P-7 and P-8 grades) for OPC, and in promotions in that category and promotions for the administrative staff pending more specific determination as to the results of the combination of OSO and OPC. He has recently received large numbers of personnel actions, both for procurement and promotion, in the categories indicated above.

2. This was previously mentioned casually to the Director. I suggest, however, that you again mention it to him just in case we get some representations.
